

Curriculum vitae

Personal Data:

First Name: Abbas

Last Name: Rezaee

Scientific Degree: Professor

Date of Birth: Jun 24, 1969

Place of Birth: Tehran, Iran

Citizenship: Iranian

Sex: Male

Address: Environmental Health Dept., Faculty of Medical Sciences, Tarbiat Modares university, Tehran, Iran

Tel/Fax: +98 21 82883575

Email: rezaee@modares.ac.ir / abbasrezaee@yahoo.com

Teaching Experience (M.Sc and Ph.D courses):

- Applied Microbiology
- Wastewater treatment
- Environmental Biotechnology & Bioremediation

Full Articles Published In Refereed Journals:

218. Shabnam Ahmadi, Mohammad Hadi Dehghani, **Abbas Rezae**, 2025, Antimicrobial effect based on activated persulfate using nano-magnetite nanozyme immobilized on the microbial cellulose hydrogel, *Journal of the Taiwan Institute of Chemical Engineers*, 170, 106039, <https://doi.org/10.1016/j.jtice.2025.106039>.

217. Mahdi Safdari, Mohammad Mahdi Emamjomeh, **Abbas Rezaee**, 2025, Ciprofloxacin removal as an emerging contaminant using electrochemical advanced reduction process: Mechanism, degradation pathway and reaction kinetic, *Journal of Industrial and Engineering Chemistry*, <https://doi.org/10.1016/j.jiec.2024.10.039>

216. Mahdi Safdari, Mohammad Mahdi Emamjomeh, **Abbas Rezaee**, 2024, Green Synthesis of Magnetite Nanoparticles (Fe₃O₄) Using Propolis Extract, *Journal of Chemical Health Risks*, 14, 1122532, DOI: 10.60829/jchr.2024.1122532

215. Shabnam Ahmadi, Sina Pouebrahim, **Abbas Rezae**, 2025, Enhanced Antimicrobial Activity of Microbial Cellulose Hydrogel Crosslinked by Citric Acid: An Experimental and Computational Study, *Journal of Molecular Liquids*, 424, 126991, <https://doi.org/10.1016/j.moliq.2025.126991>

214. Gholamreza Mohamadian, **Abbas Rezaee**, Hoshyar Hossini, 2024, Electrochemical textile dye removal using steel wool as an extended electrode, *Journal of Advanced Environmental Research and Technology*, 1 (3), <https://doi.org/10.22034/jaert.1.3.35>

213. Shabnam Ahmadi, **Abbas Rezae**, 2024, Environmental pollution removal using electrostimulation of microorganisms by alternative current, *Enzyme and Microbial Technology*, 174 (2024) 110369, <https://doi.org/10.1016/j.enzmictec.2023.110369>

212. Asma Nazemi Moezabadi, Ali Masoumi, Gholamreza Asadikaram, **Abbas Rezae**, 2023, Removal of diazinon from aqueous solutions using 3D electrochemical system including a nanocomposite of microbial cellulose/nanomagnetite, *Journal of Water Process Engineering*, 55, 104232, <https://doi.org/10.1016/j.jwpe.2023.104232>

211. Ali Masoumi, Gholamreza Asadikaram, **Abbas Rezae**, 2023, Removal of diazinon from aqueous solutions using alternating current in a three-dimensional electrochemical system containing MC/ Fe₃O₄ nanocomposites, *Materials Chemistry and Physics* 308 (2023) 128226 <https://doi.org/10.1016/j.matchemphys.2023.128226>

210. Shabnam Ahmadi, **Abbas Rezae** *, Soumya Ghosh, Alhadji Malloum , Artur Banach, 2023, A review on bioelectrochemical systems for emerging pollutants remediation: A computational approaches, *Journal of Environmental Chemical Engineering* 11 (2023) 110021, <https://doi.org/10.1016/j.jece.2023.110021>

209. Zahra Alizadeh, Zohreh Akbari Jonoush, **Abbas Rezaee**, 2023, Three-dimensional electro-Fenton system supplied with a nanocomposite of microbial cellulose/Fe₃O₄ for effective degradation of tetracycline. *Chemosphere*, 317, 137890, <https://doi.org/10.1016/j.chemosphere.2023.137890>

208. Zahra Alizadeh, **Abbas Rezaee**, 2022, Tetracycline removal using microbial cellulose@nano-Fe₃O₄ by adsorption and heterogeneous Fenton-Like systems. **Journal of Molecular Liquids**, 366, 120199, <https://doi.org/10.1016/j.molliq.2022.120199>

207. Zohreh Akbari Jonoush, **Abbas Rezaee**, Ali Ghaffarinejad, 2022, Simultaneous removal of nitrate and microbial pollution from water by the electrocatalytic activity of iron and magnetic nanoparticles supported on nickel foam. **Iranian Journal of Health & Environment**, 15 (2), 331-344.

206. Zohreh Akbari Jonoush, **Abbas Rezaee**, Ali Ghaffarinejad, 2022, Electrocatalytic disinfection of E. coli using Ni-Fe/Fe₃O₄ nanocomposite cathode: Effect of Fe₃O₄ nanoparticle, humic acid, and nitrate. **Separation and Purification Technology**, 294, 121140, <https://doi.org/10.1016/j.seppur.2022.121140>

205. Batoul Mohebrad, Ghazaleh Ghods, **Abbas Rezaee**, Dairy wastewater treatment using immobilized bacteria on calcium alginate in a microbial electrochemical system, **Journal of Water Process Engineering**, 46, 102609, <https://doi.org/10.1016/j.jwpe.2022.102609>

204. Designed, constructed and operated Projects:

- 1- Design, construction and operation of Lala hospital wastewater treatment plant, Tehran, Iran
- 2- Design, construction and operation of Arsenjan wastewater treatment plant, Shiraz industrial Estate company, Iran
- 3- Design, construction and operation of Nor-Abad wastewater treatment plant, Shiraz industrial Estate company, Iran
- 4- Operation of wastewater treatment plant of Shiraz industrial Estate company, Shiraz, Iran

- 5- Operation of wastewater treatment plant of Abadeh industrial Estate company, Shiraz, Iran
- 6- Design, construction and operation of metal package for Jolai wastewater treatment plant, Tehran, Iran
- 7- Design and construction of metal package for suspended solid removal from sand crash wastewater in Siabisha dam, Iran
- 8- Design and construction of working camp wastewater plant, Rodbar Lorestan (Aligodarz), Iran
- 9- Design and construction of Tehranpars hospital wastewater treatment plant, Tehran, Iran
- 10- Design and construction of Mehr hospital wastewater treatment plant, Tehran, Iran
- 11- Design and construction of Sevom Shaban hospital treatment wastewater plant, Tehran, Iran
- 12- Design and construction of Mofid hospital wastewater treatment plant, Tehran, Iran
- 13- Design and construction of Torfa hospital wastewater treatment plant, Tehran, Iran
- 14- Design and construction of Mahdiya hospital wastewater treatment plant, Tehran, Iran
- 15- Design and construction of Saipa company wastewater treatment plant, Tehran, Iran
- 16- Design and construction of Nikkala company wastewater treatment plant, Tehran, Iran
- 17- Operation of Islamic Azad university, Niyasheh branch wastewater treatment plant, Tehran, Iran
- 18- Operation of National Iranian Gas Company wastewater treatment plant, Tehran, Iran
- 19- Operation of Tehran Oil Refining & Distribution wastewater treatment plant, Tehran, Iran
- 20- Operation of Karaj Locomotive Repair wastewater treatment plant, Tehran, Iran
- 21- Design and construction of water treatment plant, Ilam rural water & sewer company
- 22- Biosorption of mercury by biotechnologic methods, National Petrochemical Company of Iran, Iran
- 23- Environmental impact assessments and inspection of Ilam petrochemical construction
- 24- Environmental impact assessments and inspection of Siyabisha dam construction
- 25- Environmental impact assessments and inspection of Iranian petrochemical companies
- 26- Environmental impact assessments and inspection of Olefin project in Khark petrochemical
- 27- Environmental impact assessments and inspection of Hamadan- Bijar gas transfer line, 2004
- 28- Removal of Arsenic of Sarcheshma copper factory wastewater by physicochemical and biological methods, Kerman, Iran
